

CINGAL[®]

Next Generation Injection, For Rapid Pain Relief From Arthritis, That Lasts & Protects

Proven by repeated High-Quality Clinical Trials

92% Respond positively to pain relief¹

72% Average pain reduction¹

26 weeks post injection for knee arthritis

Excellent safety profile upon initial and repeat injection¹

Proven with scientific studies

Cingal has a proven powerful anti-inflammatory effect on the enzymes that cause pain and further damage in an arthritic joint.²

Uniquely formulated for a powerful and safe effect

Anti-inflammatory
Triamcinolone Hexacetonide

Long lasting
Hyaluronic Acid

The viscous HA provides lubrication, shock absorption & chondro-protection, while further supporting the anti-inflammatory effect

A more powerful alternative to traditional Hyaluronic Acid.
A longer lasting and safer alternative to steroid injections.
